

Invitation to Financial Technology Seminar Global Managed Services 2010

Trends since 2008 and predictions for 2011

Rickie Market Solution is delighted to organize an inaugural financial technology seminar on Global Managed Services 2010 on 25th November 2010. This event will be held at the Academyhills in Roppongi.

Mr. Hidaka, President of Gartner Japan will talk about recent IT spending as the key note speaker.

This seminar brings together a number of companies, technologies and ideas that are, in their own way, part of what is called Managed Services – from Internet based Software as a Service (SaaS) to Infrastructure as a Service (IaaS) to Engineers as a Service (EaaS). The future of Managed Services will be a combination of infrastructure, software and human services delivered as fine-grained resources on- demand – anywhere, anytime.

Rickie Market Solution is organizing a number of well-received seminars/ conferences and publishing a Financial IT magazine.

Seminar Details <http://www.rickie-ms.com/pdf/FTS20101125.pdf>
